ALLOWANCE

1. Claims 1-9 and 11-16 are allowed. The claims are allowable over the prior art, for the reasons stated in the previous office action:

While the prior art teaches a barrier laminate comprising outer spunbond layers with a hydrophobic microporous layer and an electrically conductive layer between the outer spunbond layers, the prior art does not teach or fairly suggest randomly arranged conductive fibers. The woven conductive carbon-containing fabrics do not anticipate a random fiber arrangement.

It is further noted that a random fiber arrangement would not have been obvious because the carbon and/or metallic materials would not have been conducive to forming such fibers. The frangibility of carbon fibers is a deterrent to random fiber configurations. The texture of a random metallic fiber arrangement would have been undesirable for applications where a soft feel was preferred, such as when used in medical apparel.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Arden B. Sperty whose telephone number is (571)272-1543. The examiner can normally be reached on M-Th, 08:00-16:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Terrel Morris can be reached on (571)272-1478. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
